

**45. A method of treating the inflammatory components of a hormonally-dependent cancer, comprising the oral administration of a composition of claim 40.**

**46. A method of treating both the inflammatory components and the growth components of a hormonally-dependent cancer, comprising the administration of the composition of claim 42.**

**47. A method of treating the inflammatory components of a hormonally-dependent cancer, comprising the oral administration of a composition of claim 43.**

**48. A method of treating both the inflammatory components and the growth components of a hormonally-dependent cancer, comprising the administration of composition of claim 44.**

**49. The composition of claim 40, wherein said cancers are selected from the group consisting of breast cancer, ovarian cancer, pancreatic cancer, testicular cancer, prostate cancer, pituitary cancer and melanoma.**

**Remarks**

**It is the applicant's intent to limit the prosecution of this continuation-in-part/divisional patent application to the treatment of hormonally-dependent cancers. All elements of these claims are supported in the specification.**

**To accentuate this limitation, the title of this application is also being amended, as recited above.**

03/30/2004

**Respectfully submitted,**

**Dr. Melvin Blecher
